Permanent contract

IT (Information Technology)

Responsibilities

Societe Generale Global Solution Centre (SG GSC) acts as a business solution center for Societe Generale, one of the largest European financial groups. If you are looking for a great career opportunity within the IT world, then you are in the right place.

Our IT Filiere has over 800 IT professionals, delivering services on four perimeters: Retail Banking, Security and Infrastructure, Internal Support Applications, and Investment Banking. And our team is ready to expand and find new awesome colleagues to embark on this journey.

We want to provide you a meaningful career where you feel authentic and love your job. Day after day. Your tasks will be diverse but will have one thing in common: they will be useful to the community – on local levels and even global scales. Join us in shaping the world of tomorrow. The Future is You!

We are seeking to hire a skilled Software Developer to help us with the development of our current projects. As part of our team, you will play an essential role in the innovation and

creation process of Societe Generale software solutions that can reshape the digital world of tomorrow.

Specifically, you will be required to

Design and develop software systems using scientific analysis and mathematical models to predict and measure outcomes and design consequences;

Understand detailed functional specifications & ensure compliance;

Participate in the translation into technical specifications;

Proposition of the technical solution using Java and Mongo DB with Alien4Cloud platform;

Participate in the estimation of workload required to achieve the development and unit tests;

Code/set-up and document what is produced;

Comply with the standards and procedures (architecture, security, quality, documentation);

Perform a reporting activity (Daily Scrum) on the product or integrated component & work with Continuous Delivery and Agile methodologies (Scrum / Kanban);

Define the unit test cases for the product component;

Contribute to the 3rd level support, this includes: monitoring of the resolution of incident and troubleshooting.

Profile required

Proven experience as a Software Developer;

Knowledge of the software development life-cycle;

Excellent understanding of Java 8, MongoDB, JavaScript, SpringBoot;

Experience with the Linux operating systems and servers;

Knowledge on the following tools : Alien4Cloud, GIT, Jira, Jenkins, , QC, Eclipse/IntelliJ, Control-M;

French B1/B2 level is nice to have;

The desire to work in fast-paced environment, be creative and have team spirit.

Why join us

SG GSC is a Great Place to Work certified company. Here, you will find a flexible workplace and culture, autonomy, constant learning opportunities, dynamism, and talented people, making this experience a real career accelerator. You will also discover all the diversity of our businesses, in a sector that is constantly evolving and innovating.

Plus, you will enjoy all our benefits:

competitive compensation & remuneration, including annual performance bonus;

preventive healthcare plan, and group health & life insurance;

wide range of flexible benefits within a monthly budget;

office perks, wellbeing and mental health programs;

various social benefits and bonuses for personal or family events;

9-to-5 workday & flexible working environment (Hybrid);

additional paid and unpaid time off, including Sabbatical leave;

learning and growth opportunities based on individual development and career plans;

unlimited access to various eLearning resources.
