Company: Siemens Energy

Location: Bucharest

Category: other-general

## Material Resource Planning Controller

### About the Role

**Location**Romania Bucuresti Bucharest Remote vs. Office Hybrid (Remote/Office) Company Siemens Energy Organization EVP Global Functions Business Unit Competence Hub Full / Part time Full-time Experience Level Mid-level Professional

We are looking for an experienced **MRP Controller** to join our newly established Siemens Energy Competency Hub in Bucharest and to support our global Aeroderivative Gas Turbine (AGT) business.

You will build and maintain relationships with suppliers that are contracted to deliver hardware to our business. You will be the key link between our business needs, our clients and contractors and will manage the delivery plans for our internal supply chain. From ERP system accuracy to solution ownership, you will be given the level of autonomy that you thrive on and the chance to grow in a global energy company.

### A Snapshot of Your Day

You will be in charge of the relevant ERP systems in order to enable structure, data accuracy and efficiency in our supply chain management

You will be at the forefront of relationship building with our suppliers, to provide optimal solutioning of all day-to-day operations

You will participate in regular team meetings and occasional site visits, to calibrate your activities with the strategic needs of the team and to give your input

## **How You'll Make an Impact**

Robust response to demand changes, with a focus on finding customized solutions

Planning and management of stocks across the supply chain and multiple SAP system plants

SAP data maintenance and supplier enquiries handling, to ensure delivery to plan

Risk mitigation through process compliance, monitoring and reporting, to prevent delivery hazards

Act as primary interface with suppliers to co-ordinate improvement activities for planning, control, inventory management, delivery and lead time

Lead business reviews with suppliers, assess Load and Capacity constraints and the impact to Quality, Cost and Delivery

Act as first line reporting responsible for delivery issues and shortages, report, negotiate and propose solutions to get back on track and meet the plan

## **What You Bring**

Engineering, Manufacturing, Purchasing or Logistics experience, in production planning and control

SAP working experience (SAP MM and SAP PP preferred)

Quality System, Inventory Control, and IT Systems general understanding

Good influencing and networking skills

Results oriented, with good problem solving skills

Continuous Improvement mindset

Desire to build relationships and connect within our global team and external stakeholders (maximum 20% travel time to UK, France, Germany, Switzerland, US or Canada)
