Company: DOW JONES

Location: Romania

Category: business-and-financial-operations

Description

About Our Organization:

Dow Jones is a global provider of news and business information, delivering content to consumers and organizations around the world across multiple formats, including print, digital, mobile and live events. Dow Jones has produced unrivaled quality content for more than 130 years and today has one of the world's largest news-gathering operations globally. It is home to leading publications and products including the flagship Wall Street Journal, America's largest newspaper by paid circulation; Barron's, MarketWatch, Mansion Global, Financial News, Investor's Business Daily, Factiva, Dow Jones Risk & Compliance, Dow Jones Newswires, OPIS and Chemical Market Analytics. Dow Jones is a division of News Corp (Nasdaq: NWS, NWSA; ASX: NWS, NWSLV).

About the Team:

OPIS, a Dow Jones company, provides price transparency across the global fuel supply chain, including the Spot, Wholesale Rack and Retail markets. OPIS enables customers to buy and sell energy commodities with confidence with multi-platform access to accurate data, real-time news, powerful software and educational events. Our commitment to reliability is reinforced by personalized customer service and constant innovation. OPIS listens to what the energy community needs and responds with flexible and easy-to-use products. Navigating world fuel markets is complex – OPIS makes it simpler.

As a part of the PMO, Employee Engagement, and Process Development Division within

the OPIS Product Technology Group, you will work with multinational teams and individuals on both the technology and business side ensuring OPIS growth, expedited delivery, superior quality, best practices and continuous improvement.

About the Role:

We are looking for an Agile Project Manager within our Agile Project Management and Employee Engagement and Process Development Office that works with executive leadership to develop and drive OPIS Product Technology initiatives to improve product development and delivery, as well as, multi-national employee development and engagement. As a part of our team, you will work on international, cross-divisional projects to improve, expedite and ensure quality within OPIS product delivery. You will work with Product Technology Leadership, Divisional Leadership, Product Owners and various team members within technology and business, as well as, delivery teams and individual employees to improve and enhance performance, quality and growth.

You Will:

Advocate and lead Product Technology initiatives enhancing and expediting product delivery and exceptional quality while integrating automation and implementing new and improved process and streamlined delivery

Serve as an interface between business and development, building and fostering strong relationships with key stakeholders, including business and technical executives, team members and product owners

Assist in developing and leading PMO strategies, policies and processes to standardize, improve, and advocate project management best practices, streamline software development life cycle (SDLC), and DevOps principles, expediting and improving delivery and ensuring quality

Guide project managers and strengthen teams, ensuring adherence to project management methodologies, budgets and high quality deliverables

Coach, mentor, and educate product owners on agile best practices, product development process, expectations and product success criteria to ensure high quality, expedited product delivery

Gain superior knowledge on OPIS divisions, products and roadmaps to assist project

managers and product owners to streamline OPIS product development with continuous improvement

Create and standardize meaningful reporting metrics and KPIs, building strong communication of project status and progress across divisions, providing visibility and strategic direction enabling teams to set expectations for technical and business stakeholders, and enable clear, transparent communication with customers

Create summary reporting, information radiators, and full project visibility across the organization providing quick, simple insight views to all divisions

Collaborate with leadership teams to develop career paths and development plans, training programs and performance enhancement strategies to enable employee growth, vertically and horizontally, ensuring company growth, employee retention, through growth opportunities, engagement and happiness

You Have:

2+ years of increasing responsibility in Project Manager or Scrum Master roles with leadership responsibilities

2+ years experience working on projects of small to medium size

Bachelor's degree in Computer Science or related field; or similar equivalent experience

Experience managing technical software development projects in a fast-paced Agile environment

Solid understanding of Agile project management principles and how to adapt them to new business environments

Proven track record of forming, storming, and norming new teams

Understanding of how to manage and deliver development and business change or continuous improvement programs, preferably in a large, matrixed group

Understanding of change management techniques

Effective communicator with a wide range of audiences from team member to executive

Does this sound like you?

An organized and creative storyteller through story maps, epics, user stories, release planning, Kanban boards, relative sizing estimation techniques, feedback loops, and team metrics

A strong analytical thinker with a love for planning and organization who can manage competing demands with minimal supervision

Someone who loves to listen, easily understands business needs, and can establish a high level of trust and confidence with customers, stakeholders, and organizational leadership

A self-starter with a never-ending curiosity to learn, solve problems, coach, mentor and help others

Able to maintain the “big picture” without losing sight of the complexity within and a knack for communicating various layers of detail clearly to appropriate audiences

A natural facilitator when it comes to collaboration/brainstorming, negotiating, and team building sessions

A leader, coach, and mentor that thrives on metrics, regular feedback loops, and finding challenges/activities to grow your team in the pursuit of continuous improvement
